GEORGE MANDELL

MAY 17, 2026

Trump could not do more to harm the USA and NATO if he worked directly for Putin. Oh. Wait. It all makes sense now. Trump does work for Putin. Treason, incompetence, mental illness and physical deterioration. What a package. We are all just lucky enough to live this nightmare. Impeach Trump. Article II Section 4 now!! End this nightmare!!

The central campaign plank for Democrats in 2028 should be a massive redistribution of wealth from the rich to most Americans. Give Americans a choice for the major direction of our country. James Talarico and others have it right, the true battle is the rich versus the rest of us not the Left versus the Right or treating immigrants as subhuman. Trump's administration has focused on making the wealthy richer at the expense of most Americans and spreading hate and fear. Our environment and country are being destroyed so the rich can get richer. When Trump and his ship of fools are gone it will take a massive redistribution of wealth to rescue Americans from the tyranny of the wealthy. Republicans have helped the rich steal from Americans for at least the last 50 years. The minimum wage has stayed the same for decades while family costs of housing, food, energy, medical care, education have skyrocketed. Think of FDR and the New Deal, the last great wave to help most Americans survive and prosper. This country is of the people, by the people and for the people. Not of the rich, by the rich and for the rich. Stop giving massive tax subsidies to corporations like Exxon, Mobil, Amazon, META and others. Give Americans help and a chance for hope and satisfaction with life. Tax the billionaires!!
Redistribute wealth to Americans!

I'm betting Trump lasts one more week. Any takers? What's the sports book betting line anyway? Can we bet on how long Trump lasts? 8647. Impeach. Article II Section 4 now!!

Trump is literally rotting from the inside out in front of our eyes. Physical and mental health issues are dragging him down. The toilet bowl is swirling for Trump. Trump could go any day. Trump will probably not live to see the end of his current term. Trump says he should have a 3rd term. Most likely Trump will not last long. That's a good thing for Americans and the world.

Might be better to ship Trump and his cabinet to The Hague for international war crimes. Will America ever punish Trump and his entire cabinet for treason, war crimes, corruption, crimes against humanity, rape, extortion, murder? What did I leave out? America needs help in prosecuting Trump for international war crimes and everything else. The Hague and the Nuremberg Trials were a good attempt at prosecuting Hitler and NAZI Germany. We must realize that Trump has elevated himself and others to be of a similar nature. America needs help to end this Trump nightmare. Trump has made this a case for the world to resist and overcome. America has gone rogue and is a terrorist nation. Trump is a monster not a man and should be treated as such.

It was never about deporting criminals and rapists. It. Was. Always. About. Hate. And. White Supremacy. Got it yet?

John Thune and Republicans, the Supreme Court do not grasp the monster they have created. Trump is a monster and a child. Trump has no idea how to be an adult and negotiate and compromise to achieve mutual goals. Trump is an idiot who thinks he is a genius. Trump will burn the USA and the world to the ground before he compromises to anyone or anything. The only effective way to deal with Trump is to remove him and his whole cabinet from power. Trump is the worst case scenario that the Founders and US Constitution try to protect against. Article II, Section 4 of the US Constitution must be invoked immediately.

The US and the world may never be able to recover from the damage Trump has caused so far. The Trump nightmare gets worse every day as Trump commits new atrocities every minute of every day.

It really is past the time when Donald Trump should be wrapped up in a white suit and put in a rubber room where he can no longer hurt anyone or himself. Every day it's something new, worse than yesterday. Trump is at war with himself and everyone else. Trump is like Hitler, starting new chaos and wars on all fronts domestic and international every day. Hitler committed suicide at the end.

ICE Detention Facilities are Concentration Camps. Call them what they are. People are suffering and dying in ICE custody. Genocide, war crimes, crimes against humanity punishable by international and US law. CoreCivic and others are making billions from for profit detention facilities and prisons.

Trump's approach to governing is not sustainable and is destroying the US and World economies and stability. Dementia in real time. If you can't see this by watching Trump God help us all. Please. Press the pause button on this lunatic and his whole government. For all of us and those that follow us. We are all immigrants.

Trump makes us all less safe. The NAZI Playbook, create a crisis, blame others for starting it, send in the stormtroopers. Trump sees force and military takeover as solutions for every problem, moron. Trump's MAGA Dream is rotten from the inside out, just as Hitler's Make Germany Great Again was. Trump and MAGA are destined to fail. Hitler committed suicide. History. Matters.

Trump's dominant character trait and flaw is the love for the use of power and hate to attack and abuse others. Trump is a coward and a bully with no honor or morality, preferring to pick on those with less power than he has. Trump has a history of not paying many contractors and subcontractors who helped build his projects and suing anybody he dislikes. Murder is okay. War crimes are okay. Treason is okay. Trump's love of the use of force is consistent with the accusations of rape and human bondage. I believe the Epstein survivors and accusers. Trump is truly a monster, not a man. End this nightmare.
