TODAYS THOUGHTS MEMORIAL DAY 2026

On this solemn day of remembrance, on the celebration of those who gave their lives so that we could be free I find it necessary to comment on where the USA is now and on what it has become.

Thomas Jefferson, the third President of the United States, a founding father of this country and a principal architect of the Declaration of Independence and the United States Constitution once said and I paraphrase here, "When the government ceases to serve the needs of the People it should be torn down and made new."

It seems obvious to reasonable people that the US government has ceased to serve the needs of the American people. When the President and the leader of the Executive Branch is a convicted felon of sexual assault and has thousands of credible accusations of rape of children (boys and girls), of women and possible other crimes including murder. When the President treats the US Government as his personal piggy bank in the use and abuse of tax payers money and daily commits new crimes including war crimes, crimes against humanity, genocide, misogyny, racism, fraud, corruption, spreading hate, fear and disinformation. When the President daily breaks almost every oath to the Constitution that Presidents make. When the President commits treason.

When the leadership and body of the Rape-ublican Party protects a pedophile while trying to bury the Epstein files, investigation and

prosecutions. When the Conservative Supreme Court Justices enable the rich to control the government, crimes against humanity (ICE), crimes against women, deny women rights to control their own bodies, deny voting rights to black and brown people, encourage misogyny, treason and more. When at least two members of the Supreme Court have credible accusations of sexual harassment or sexual assault.

Then a reasonable person must conclude that the US Government no longer serves the people and is no longer a government of the people, by the people and for the people as described by President Abraham Lincoln. Instead the US Government has become an abomination serving vested interests of the rich and powerful and not the American people.

Then the US Government must be torn down and made new. If I had the power I would have Donald Trump, his entire Cabinet, the Conservative members of the Supreme Court, the Rape-ublican Leadership, members of the Trump crime family and others placed in ICE Detention Centers as a start, then shipped to the Hague for prosecution of war crimes, crimes against humanity, genocide and more.

Let us forever remember those who gave their lives for our freedoms. Let us forever remember that we honor those fallen soldiers best when we ourselves take on the mantle to serve and protect the US Constitution and the freedoms it provides.

Can you find me a Thomas Jefferson quote? When a government no longer serves the needs of the people, it should be replaced.

The quote you're looking for is usually rendered as:

"Whenever any form of government becomes destructive of these ends, it is the right of the people to alter or to abolish it, and to institute new

government..." [5]

It comes from the Declaration of Independence, which is associated with Thomas Jefferson [5]. A closely related line is: "Whenever the people are well informed, they can be trusted with their own government; that whenever things get so far wrong as to attract their notice, they may be relied on to set them to rights." [7]
